

Man made Calendar

13<sup>th</sup> Moon = 7 days for ceremony each quarter and time for procrastination

Developed from teachings by Larry McLeod

Turtle is Universal and depicts the Natural Moving Cycle as it turns with each day, moon cycle, season, and year. Timing of naturally occurring events differ according to location.

The human life cycle - development of feeling/hearing/seeing/speaking and the rites of passage at stages/milestones facilitates connection our place in the natural flow.

Communities can utilize this model by inserting local stories, teachings and activities according to their timing.
