

# Holistic Wellness and Plans of Care – Circle of Care

- Holistic assessment – life needs, strengths, goals, steps identified and organized with holistic model to create and monitor plan
- Wellness/Plans of Care – **incremental steps/tasks to achieve goals** developed with the support of **Professional Circle-of-Care** (*community services, clinical services, natural/cultural supports*) and **Personal Care-Team** (*family and friends*) in alliance with the Community Member
- On-going Case Management through each stage of treatment
